

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION V

DATE: FEB 11 1987

SUBJECT: Final Environmental Impact Statement  
for Jefferson /Conner Industrial  
Revitalization Project

FROM: Bonnie L. Eleder *BLE*  
CERCLA Enforcement Section

TO: Tom Nowicki  
Environmental Review Branch

I have completed my review of the Final EIS dated December 1986, notably, those portions addressing the identification and disposal of hazardous materials. As I related to you over the phone on January 26, 1987, my one recommendation would be that there be a provision for EPA and MDNR involvement in the development and finalization of the QA/QC and Health/Safety Plans. This final EIS incorporates most of my previous comments outlined in my memorandums dated November 26 and December 17, 1986. Also, as I related to B. Franz, I've reserved February 2 for a meeting with the City of Detroit contractors.
